Organization's name : MINOEMO

Locations : Yogyakarta

Job Role : Owner

Job desc : Develop and sell our drink products

2021-2022

Organization's name : NONE

Locations : Muntilan

Job Role : Freelancer/Private Consultant

Mission Accomplished :

- Vaccination registration system organized by the army hospital, Kodim 0705 Magelang and the Muntilan church. I made using Python Django. The special about this website is after people registered will get QR Code and automatically divide per hour, at that time I set per hour 100 people, so we avoid people come at the same time. And I made that web application only 3 days, after first vaccine, I made SMS Gateway using VB Net to blast SMS to People to come at the time that system already decided. This is a social job.
- Programmer and Scrum Master for little group of Python Programmers from different countries. But we still in development, not live yet. We try to create SaaS with API to handle Point of Sale web application.
- Tutor for some programmers, learn about Python Django and Restful API every Friday night 8PM with zoom.
- Freelancer for <https://bizkonekt.com> US using Python Django, my responsibilities is as a full stack developer, create backend, API and DB design.

Supervisor or Colleague for Vaccination :

- SERKA Arm Irfan +62 896-7364-6302
- Letnan Satu Joko Prayitno +62 822-4590-1844

Colleague for little group of Python Programmers :

- Shawki Aladdin +20 111 864 2524

Colleague for my Python class :

- Teguh Adiarto +62 812-8018-0703

2022 – July 2022
